

Ideation Phase

Define the Problem Statements

Date: 29 September 2026

Team ID: SWTID-2026-9644

Project Name: Implement Client Script & UI Policy (Incident)

Team Leader: Vairavakarumari A

Team Members: Abinaya K, Kayathri Devi B

Customer Problem Statement

	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A user or service desk agent who logs incidents in ServiceNow	Create an Incident with complete and accurate information	Incomplete, inconsistent, or incorrect data can be submitted	Field rules and validation are not enforced at the form level, and I rely on manual checks	Unsure about data quality and prone to errors
PS-2	A support or resolver team member handling incidents	Triage, route, and resolve incidents quickly within SLA	Incident records often have missing or inconsistent details	Conditional mandatory fields and save-time validation are not applied through UI Policies and Client Scripts	Frustrated, delayed, and under SLA pressure
